

# DIY Lens Hood

Written By: Nicholas petrizzio

## SUMMARY

Make a lens hood for free.

### Step 1 — DIY Lens Hood

- Get a piece of paper and tape the paper on
- After you cut the paper, the tape comes off

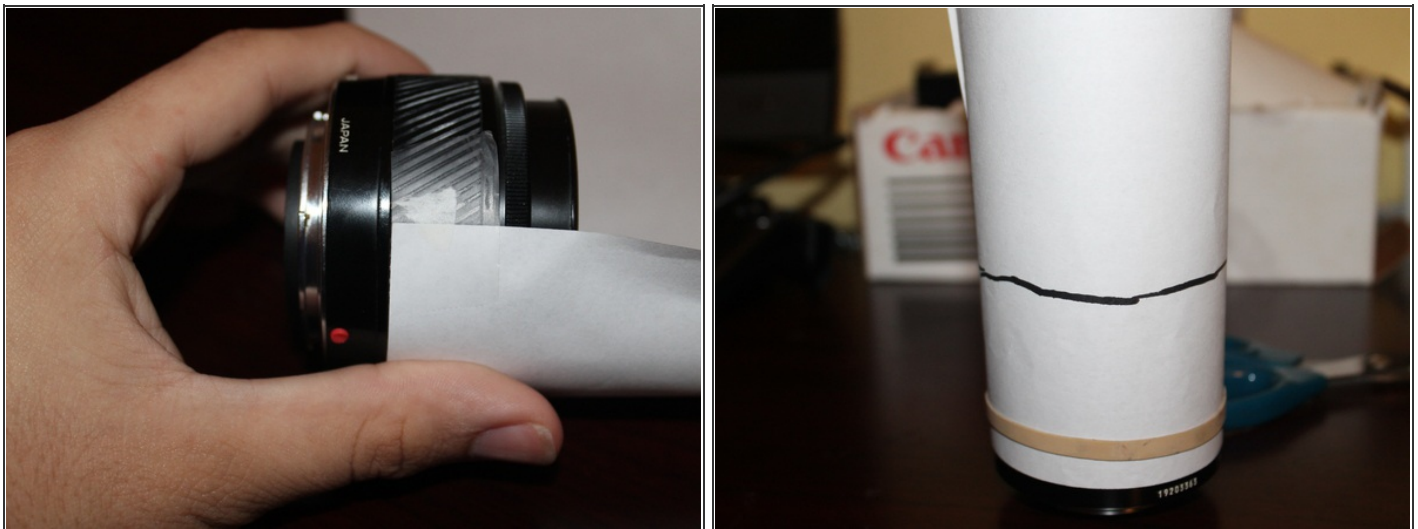

## Step 2

- materials
- Scissors, tape, marker, lens, rubber band

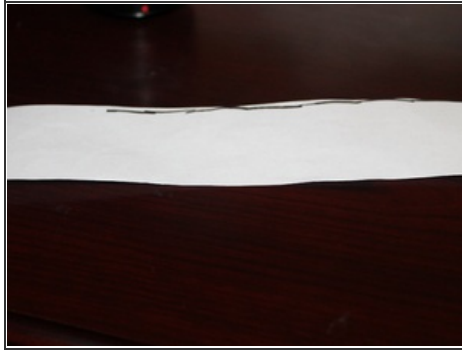

## Step 3

- wrap the paper on the lens and mark it with a marker
- Your mark will vary based on your lens, my minolta AF-50 prime and has to be shorter than a zoom lens

## Step 4

- Take the paper off and cut the paper and replace it
- Tape the gap too
